## Education

- baccalaureat**  
Economics and Management  
2022-2023
- Business Computing major**  
2023-Present

## Hard skills

- Technical skills: multi-language development, modern frameworks, databases, and BI/Power BI.

## Soft skills

- Problem-solving, analytical thinking, autonomy, teamwork, organization, and creativity.

## Academic & Personal Projects

### FocusMap

Academic

Developed an interactive goal-mapping web app using Laravel, integrating LeafletJS for location-based visualization. Implemented goal creation, step management, and progress tracking through a clean and intuitive interface.

### MovieNight

Personal

Built a React web app that displays movie details using the OBDM API. Focused on UI/UX, real-time data fetching, dynamic search, and responsive design to create a smooth movie-exploration experience.

### Ecologic Chatbot

Academic

Created an ecological assistant chatbot in Python designed to inform users about eco-friendly habits and sustainability. Implemented structured responses, keyword detection, and clean conversational logic.
